SATURDAY EVENING, SEPT. 22, 1900.

For months we have been reading announcements of the closing up of different establishments all over the country and especially in the industrial centres of New England and other portions of the North. At Fall River, Mass., about 20,000 men, women and children were thrown out of employment months ago and we have seen no announcement of a general resumption of work. In August five thousand operatives were thrown out at Biddeford and Saco, Maine, and national banks are failing there too. If all this be republican "prosperity", we imagine the poor working people would like something else. And new comes on a strike of something like 120,000 miners contest and an addition to the army of mands of 60,000 men who have been idle since June 30. It was thought that the matter could be arranged, but a suspension of work for 60,000 men during two and a half months is a very serious matter. On the heels of this and the great coal strike, we read of a notice being posted at the four mills of the Susquehanna Iron and Steel Company at Columbia, Pa., announcing a reduction of 25 per cent in wages, affecting 18,000 men, and it is also stated that the mills at Lancaster, Harrisburg, Brunswick and Lebanan, Pa., bave already made a similar reduction. And all this cutting down of wages is contemporaneous with a large increase in Europe for the so-called pauper labor the price of nearly all the necessaries of of that country, and imported Slavs, life for the poor, affecting especially the Poles and Huns by the thousand to dig retail trade, on which the miners depend in their mines. These miners are now for buying their supplies. And yet Mr. Hanna and the republicans cry out "behold prosperity and a full dioner pail." Their idea is that a lie well and mules thereof. Retribution comes stuck to is as good as the truth. There in various ways, but it rarely fails. is no danger of the lie factory being closed up.

Norwithstanding the government's active interference with the election in Cuba, its enemies gained a decisive victory and showed beyond a doubt th dom and independence promised them has received from its agents in the by Mr. McKinley when he involved countries in which those wars are being ago in jealous rage shot and nearly the United States in a war with a friendly nation, nominally in their bhalf, which, and its consequences, have cost this country thousands of lives and [Correspondence of the Alexandria Gasette.] hundreds of millions of dollars. When Spain and her negro and half-breed insurgents were fighting each other is was their business, and the United States should have let them alone and allowed them to settle their own differences in their own way.

THE REPUBLICANS disfranchised all the negroes in Washington, and those in Massachusetts who can't read and write, and those in Pennsylvania who don't pay taxes, and nearly all of them in Porto R co, but they make a great ado because some of the Southern States restrict negro suffrage to those intelligent enough to know what they are doing when they cast a ballot, and Senator Hoar demands a restriction of Southern representation, because the to the governments for which they are Southern negroes, having at length discovered, to their sorrow, that Southern republicans do them barm, instead of good, stay away from the polls and do not vote for them.

MR. ROOSEVELT doesn't agree with Mr. Bryan as to the ill effects of an army of one hundred thousand idle men, and points to the recent list of killed and wounded American soldiers in the Philippines as proof that the men in the army there are not idle. But the "hero of San Juan" should know that but for the trusts, that have curtailed employment here, the killed and wounded men referred to would have been at peaceful work in their own land, and not been engaged in an attempt to deprive people who have never done them any barm of their homes and their country.

THE late General McCleroand was a member of the United States House of Representatives from the State of Illinois in 1860, and made a speech therein in which he said that Northern solmarched over, he was heading Illinois troops on their march to the South to coerce the Southern people. Most memories are unpleasant, but they can't be obliterated.

The comparison in this case must be especially odious, to the Cook group.

As REPORTED in the Richmond Dispatch, General Fitzhugh Lee says: the Homestead law. "If the Cubans can frame a constitution and prove ability to govern themselves, so well and so good, but they can't do this for themselves. Somebody will have to do it for them." If we are not mistaken, the General, when he was U. S. consul at Havans, was firmly convinced that not only were the Cubans able to govern themselves, but they and all the people he saw or heard there, believed they were.

PRUM WASHINGTON.

Washington, September 22. The chief statisticion of the Census Bureau today announced that in order to proceed with business systematically the office must decline to issue any bulletins of cities or towns under 25, 000 population until the full State bulletine appear in alphabetical order states will appear as completed providing such conform with the alphabetical system. These bulleties are expected o begin next week, and will, perhaps, appear at the rate of half a dozen week No deviation from this rule will in any case be made.

It has been decided that the United States' notes to Russia, Germany and China will not be given out for publi-cation in this afternoon's newspapers. They are to be printed in the papers of to-morrow morning. This delay, it is said at the State department, is necessary to ensure the delivery of the notes intended, before publication is made of them here. The old idea is maintained in this case that the same rule which obtained years ago before the introduction of cables, viz., that 48 hours should ne allowed to elapse before such notes are pub ished, is applicable now. Acting secretary Adee is believed to be res ponsible for delaying the matter.

It has been stated in some of the newspapers that Mr. Cleveland in re- seven others more or less seriously sponse to an invitation of the Democratic Iroquois Club of Chicago to attend their banquet, would write a letter advising the democrats to do as his ex-Cabinet ministers, Messrs. Olney and Wilson intend doing and support Mr. Bryan, but it is stated here posiively that he will do nothing of the kind and that he will not write or utter a word in behalf of the party that took him from the slums of Buffalo and tery C were called made him what he is. His rich and Gobin in command. particular and especial friend, Mr. Bennett, who accompanies him on all his yachting trips, when asked by a democratic committee to contribute to the democratic campaign fund, replied that ue wouldn't give a stiver, he, like Mr. Cleveland, laboring under the egregious and ridiculous delusion, that he is better than the entire democratic party.

Mr. Quay who is here in consultation with some of the republican Condiers on their way to the South to gressmen from his State and trying to coerce the people of this section would find out if he administration will be as have to march over his dead body. A much opposed to him as Mr. Hanna, deputies are much in evidence there. short time afterward, instead of being who voted against him, is gratified at the result of the recent republican primaries in Philadelphia and believes that he will be re-elected Senator. Mr. Wannamaker has sub-cribed \$100,000 to the Hanna republi-can fund, but the Carnegie, Bethle-hem and all the other steel intereets in Pennsylvania have given their money to Mr. Quay's fund, and will the union will not arbitrate with any live more if it be needed, as he has al-ways been their friend and looked after that the fight is really between the

FIRED ON THE MOB.

The tragedy that has been looked for since the coalworkers' strike was inaugurated come suddenly and unexpectedly at Shenandoab, Pa., yesterday afternoon.

A posse hurriedly gathered together by Sheriff Toole, of Schuylkill county, to meet an emergency, was forced to fire on a mob that was threatening workmen on their way home under escort. A man was instantly killed and wounded.

Sheriff Toole lost no time in calling on the commander of the National Guard of Pennsylvania to send troops to aid him in keeping the peace. After consultation, the State authorities at Harrisburg decided, at midnight, to

send troops to the turbulent region.

The Fourth, Eighth and Twelfth regiments, the Governor's Troop and Battery C were called out, with General

Shenandoah's trouble was precipitated by the closing of six collieries there yesterday morning through the efforts of strike leaders. More will close today, as a voluntary act, it is said, of the part of the Reading Compacy. This is done at the request of Sheriff Toole, who hopes in this manner

to avoid further rioting.

Elsewhere in the strike region everything is quiet, although preparations are making for an outbreak in the Hazleton district, and armed sheriff's

The Reading Company has about discontinued the sale of coal for future delivery, and last night's rioting cer-tainly means the shutting off of coal production everywhere in the anthracite

President Mitchell, of the United
Mine Workers' Union, issued a public statement yesterday explaining why that the fight is really between the miners and the nine railroads that own nearly all the mines and control the With them, Mr. Mitchell says, rates. the miners are anxious to arbitrate.

midnight. No attempt was made to open any of the collieries in this vicinity this morning. Sheriff Toole urged the operators not to try to work the mines ntil the militia arrived and his advice was heeded. They do not know what it is all about, but they riot on general principles After the shooting which was on the main street of the town, many of these people swore they would wipe out all the English speaking people in the town. No effort was made to patrol this district last night or this morning. Among the most reliable deputies are the English speaking miners. One of them said this morning: "I am a miner, and so are most of the We are good citizens and

posse. we will protect this town with our lives. Our wives and babies are here and our homes are here; we will kill these foreigners if we have to. We hope to win the strike, but rioting will not win it. These fellows are ignorant. Many have not been in this country six months and we cannot talk to them and they do not understand anything about the strike. We will not help the railroads open their collieries but we will defend the town and the citizens.

Piatoons of special officers were staioned in the fereign quarter at 6 o'clock and the streets were kept clear. The shooting of yesterday has so cowed the foreigners that if they can be kept from getting together in large numbers there will be no rioting.

Harrisburg, Pa., Sept. 22.—General Gobin arrived at Shenandoan with five companies of the 8th regiment and one of the 4th at six o'clock and was re ceived with cheers by the people. He reports that before night he would have the 1,800 men in camps and ready for the suppression of any disorder.

Haz lton, Pa., Sept. 22 - "Mother"
Mary Jones went to McAdoo last night

to rouse the women to action. When men came to the meeting she told them to go home and get their wives. 'Mother" Jones urged the women to help the men win the victory. Their applause indicated that they would follow her advice. The first pa-rade of the present strike started rom McAdoo this morning at dawn. There was a band, two flags, a detachment of men, and a body of women carrying brooms. Sheriff Breslin, with large force of deputies, met them a Coleraine and accompanied them to Beaver Meadow. At the latter place a meeting was held.

The general situation in the Hazalton district was unchanged this morning. A large increase of guards appeared at most of the mines, and seems now as though the entire county were spotted with them. Organizer Dilcher addressed a tremendous meet ing at Freeland last night. He favored six hours a day and said the miners were willing to accept as referee in arbitration either President McKinley, W. J. Bryan, Bishop Potter or Cardinal Gibbons.

Scranton, Pa., Sept. 22.-The strike situation is extremely quiet today, throughout the Lackawanna region. The great army of idle miners are conducting themselves in a manner which -licits the praise of the public at large. No outbreak is feared in this region The miners express much regret at the disorderly state of affair in the Schuylkill region.

Wikesbarre, Pa., Sept. 22.—On secount of the trouble between the depuries and strikers at Shenandoah, the 9.h regiment of this city has been ordered by the Adjutant General of the State to hold itself in readiness to move at a moment's notice to that place.

The 12th regiment passed out over the Pennsylvania railroad, this morning, on its way to Shenandoah. Other egiments which have received similar orders as those sent to the Ninth, are Fourth and Eighth, battery C Phoenixville, and Governor Stone's troop of cavalry. The West End Coal Company is greatly encouraged today because of the fact that a large num per of men who struck during the week returned to work this morning, and ou of the 547 men and boys employed there, only 30 are now out.

The washery which is operated by

the same company is also in operation and is working full handed.

Mahanoy City, Pa., Sept. 22.—The riot at Sheuandoah yesterday morning and last night was expected to precipi tate trouble here this morning, but i did not materialize because the minera did not show up for work. Every colclosed. The few men who started for the collieries were met by strikers and advised not to go. Trevorton is still running full. A weak point for the strikers is in Panther Creek Valley, where about 7,000 men are employed and all unorganized. These collieries are operated by the Lehigh Coal and Navigation Company.
Manonoy City, Pa., Sept. 22.—Sheriff

Toole has sworn in more than 600 deputies to preserve order and the coal operators in this vicinity have engaged like number to protect their interests. The operators have scattered their police around the various collieries. This is pay-day in this district and \$40,000 is being disbursed.

Philadelphia, Sept. 22.-Archbishop Ryan is still in this city. When quesstrike he said he hoped for the success of arbitration before further bloodshed Shamokin, Pa. Sept. 22 .- The 12th regiment of the National Guard passed brough here this morning for Shenandoah, The E ghth and Fourth regiments are now at that place. All the Schuylkill collieries, outside of Shenandoab, are in operation today. The people of this place are apprehensive of trouble and large crowds are congregating on

the streets this afternoon.

Shenandosh, Pa, Sept. 22 — There was no girl kided during the riots yesterday as reported in the morning papers. There are persistent reports that several men were killed. but the police say if so, nobody will ever know it. All is quiet this afternoon. At noon a second special train with 600 men of the 12th regiment arrived. They were encamped on a hill commanding the opposite side of the town from the Sth regi-ment.
